YOUR GOALS ARE OURS!

OUR INTERNATIONAL PLACEMENTS

As students prepare for Indian entrance examinations, they are extremely well placed for placements in premier institutions worldwide! Our JEE students have been placed in Ivy league colleges, NUS, NTU, etc. Our NEET preparation has ensured that our medical aspirants have scaled various European medical college entrance examinations. The JEE and NEET are recognised globally as two of the toughest examinations, and students preparing for them have therefore been extremely well regarded in International college admissions.

STUDY MEDICINE ABROAD

A comprehensive course that prepares students for entrance exams for admission to medical universities abroad.

Course Description

This self-paced course primarily focuses on preparing the students for some of the major entrance exams, such as BMAT (for the UK) and IMAT (for Italy). In addition, it concentrates on other university-specific entrance exams for medical colleges in the Czech Republic, Hungary and Poland.

Study Material And Testing Methodology

Students are provided access to comprehensive study material in the form of topic-wise notes, tests, mind maps and recorded classes. Students can also access tests in the specific pattern of the entrance exam they are preparing for.

TESTIMONIALS

It has been a wonderful journey at Ascentria. All their faculty are IITans and hence they not only prep the students up for IIT and other competitive exams but also for the 12th boards. What is most helpful that they conduct even one on one classes with the students if there is a need to clear their doubts. Their continuous assessment and excellent course material ensures that students challenge themselves and helps to bring the best out of them. Our son has been able to consistently maintain a 96% + average on the PCM throughout the 11th and 12th and most of the credit goes to Ascentria! Year on year Ascentria students have excelled and credit goes to Mrs. Alka and her wonderful team, faculty. Thank you and happy to recommend Ascentria !
